INDEX TO VOLUME XL

Acrocephaly and syndactylism, Combined, occurring in mother and daughter. A case report 73
Amylase-accelerator and anti-trypsin of normal blood serum 238
Anaemia, Sickle-cell 77
Andervont, H. B., and Lewis, M. R., The inactivation of the chicken-tumor virus by means of carmine 265

Bacterial mutations, Technical difficulties encountered in an attempt to produce 318
Bailey, P., Further remarks concerning tumors of the glioma group 354
Blood guanidine, Observations on the, in tetania parathyreopriva 287
Book Reviews 58, 110, 193, 259, 326, 422
Braeye, L., Contribution to the study of toxic absorption from the intestinal tract in experimental high obstruction 33
Brickner, R. M., The rôle of the capillaries and their endothelium in the distribution of colloidal carbon by the blood stream 90
Brown, J. H., and Harris, J. W., Description of a new organism that may be a factor in the causation of puerperal infection 203
Brown, J. H., and Frobisher, M., Technical difficulties encountered in an attempt to produce bacterial mutations 318

Calcification, The effect of inorganic salts on 1
Capillaries and their endothelium, The rôle of the, in the distribution of colloidal carbon by the blood stream 90
Carcinoma of the cervix uteri. Its operative prognosis: A clinical and pathological study to ascertain the prognosis following operation for extirpation of the malignant process 160
Chant, E. H., and Gay, L. N., Skin reactions to human sera 63
Chant, E., and Gay, L. N., The passive transfer of hypersensitivity (local and contralateral passive transfer experiments) 270
Cornell, B. S., A study of the pre-disease diets of patients with pernicious anaemia ... 409
Cultures, tissue, The physical relation of cells in 216

Faupel, M., and Wuth, O., The significance of the H-ion concentration for the colloidal gold test 297
Ford, F. R., and Wilson, R. E., The nervous complications of variola, vaccinia and varicella, with report of cases 337
Friedenwald, J. S., A new ophthalmoscope. Preliminary report 201
Frobisher, M., and Brown, J. H., Technical difficulties encountered in an attempt to produce bacterial mutations 318

Gall-bladder, Morphological studies on the, I. A note on the development and the microscopic structure of the normal human gall-bladder 390
Gay, L. N., and Chant, E. H., Skin reactions to human sera 63

Gay, L. N., and Chant, E., The passive transfer of hypersensitivity (local and contralateral passive transfer experiments) 270
Glioma group, Further remarks concerning tumors of the 354

Halpert, B., Morphological studies on the gall-bladder. I. A note on the development and the microscopic structure of the normal human gall-bladder 390
Harris, J. W., and Brown, J. H., Description of a new organism that may be a factor in the causation of puerperal infection 203
Heliotherapy, Windows and actinometers for 228
Helms, S. C., MacNider, W. de B. and Helms, S. T., The course of uranium nitrate intoxications in pregnant dogs 145
Helms, S. T., MacNider, W. de B. and Helms, S. C., The course of uranium nitrate intoxications in pregnant dogs 145
H-ion concentration, The significance of the, for the colloidal gold test 297
Holt, L. E., Jr., and Shipley, P. G., The effect of inorganic salts on calcification 1
Human blood, A biometric study of the relative cell volume of, in normal and tuberculous males 3
Hypersensitivity, The passive transfer of, (local and contralateral passive transfer experiments) 270
Hypertension, arterial, The probable presence of increased amounts of guanidine in the blood of patients with 85

Josephs, H. W., Sickle-cell anaemia 77

Kindwall, J. A., A supra-vital study of the cells in the lymph stream of the rabbit .. 39
Kramer, B., and Wilkins, L., Infantile rickets. Treatment by intramuscular injection of a cod-liver oil concentrate 52
Kredel, F. E., The physical relation of cells in tissue cultures 216

Lewis, M. R., and Andervont, H. B., The inactivation of the chicken-tumor virus by means of carmine 265
Lymph stream of the rabbit, A supra-vital study of the cells in 39

MacNider, W. de B., Helms, S. T., and Helms, S. C., The course of uranium nitrate intoxications in pregnant dogs 145
Major, R. H., and Weber, C. J., The probable presence of increased amounts of guanidine in the blood of patients with arterial hypertension 85
Major, R. H., Orr, T. G., and Weber, C. J., Observations on the blood guanidine in tetania parathyreopriva 287
Martzloff, K. H., Carcinoma of the cervix uteri. Its operative prognosis: A clinical and pathological study to ascertain the prognosis following operation for extirpation of the malignant process 160
Miner, J. R., and Pearl, R., A biometric study of the relative cell volume of human blood, in normal and tuberculous males 3
Muscle and nerve, Problems of the relation of 117

O'Donovan, C., Jr., and Davison, W. C., The amylase-accelerator and anti-trypsin of normal human serum 238

Ophthalmoscope, A new. Preliminary report 201
Orr, T. G., Major, R. H., and Weber, C. J., Observations on the blood guanidine in tetania parathyreopriva 287

Pearl, R., and Miner, J. R., A biometric study of the relative cell volume of human blood, in normal and tuberculous males 3
Pernicious anaemia, A study of the pre-disease diets of patients with 409
Pfund, A. H., Windows and actinometers for heliotherapy 228
Puerperal infection, Description of a new organism that may be a factor in the causation of 203

Rickets, Infantile. Treatment by intramuscular injection of a cod-liver oil concentrate 52
Rickets in the infant, The influence of the administration of cod-liver oil to the mother on the development of 244

Sera, human, Skin reactions to 63
Serum, normal human, The amylase-accelerator and anti-trypsin of 238
Shipley, P. G., and Holt, L. E., Jr., The effect of inorganic salts on calcification 1

Thyroid feeding, The effect of, on the spontaneous activity of the albino rat and its relation to accompanying physiological changes 304
Toxic absorption from the intestinal tract in experimental high obstruction, Contribution to the study of 33
Tumors of the glioma group, Further remarks concerning 354

Uranium nitrate intoxications, The course of, in pregnant dogs 145

Variola, vaccinia and varicella, The nervous complications of, with report of cases .. 337
Virus, chicken-tumor, The inactivation of the, by means of carmine 265

Wang, G. H., The effect of thyroid feeding on the spontaneous activity of the albino rat and its relation to accompanying physiological changes 304
Weber, C. J., and Major, R. H., The probable presence of increased amounts of guanidine in the blood of patients with arterial hypertension 85
Weber, C. J., Major, R. H., and Orr, T. H., Observations on the blood guanidine in tetania parathyreopriva 287
Weech, A. A., Combined acrocephaly and syndactylism occurring in mother and daughter. A case report 73
Weech, A. A., The influence of the administration of cod-liver oil to the mother on development of rickets in the infant 244
Weed, L. H., Problems of the relation of muscle and nerve 117
Wilkins, L., and Kramer, B., Infantile rickets. Treatment by intramuscular injection of a cod-liver oil concentrate 52
Wilson, R. E., and Ford, F. R., The nervous complications of variola, vaccinia and varicella with report of cases 337
Wuth, O., and Faupel, M., The significance of the H-ion concentration for the colloidal gold test 297
